Traffic Management Update – A38 Stoketon Cross Night Closures

We would like to inform you of upcoming traffic management arrangements at A38 Stoketon Cross.

Planned night works will commence on Monday 20th April and will take place over four consecutive nights. During this period, there will be a full closure of the A38 at Stoketon Cross, with clearly signed diversion routes in place.

The closures will be in effect each night from 8:00pm to 5:00am.

These works are necessary to facilitate the installation of new services ducting across the A38, which requires excavation of the existing carriageway.

Please see the diversion plan on the next page for further details.

For more information about this scheme please visit Montel Civil Engineering's website, and head to live projects section, and we would like to thank residents and road users for their continued patience while these essential works are carried out.

Kind Regards
Montel Civil Engineering Team
