

As you are aware, a Community Networks Highways Scheme has been launched, which has £50,000 per annum allocated to support local highway schemes, over a period of 4 years. The Cornwall Gateway Community Network Area panel has commenced the process of considering and prioritising expressions of interest that have been submitted to date and will continue to assess any new applications.

I am therefore writing to request that if there are any other schemes that Saltash Town Council wishes to submit for consideration at the next panel meeting, please complete and return the attached expression of interest to me by **12th November**.

In addition to new schemes, there is a need to review the historic list of proposed local schemes (schedule attached). This list derives from schemes suggested by members of the public, councillors and reviews by officers in previous years and in order to ensure that the panel is able to consider the priorities for the network area, there needs to be a consideration of this. I am therefore requesting if you could assess the entries for the Saltash area and advise if any of the schemes should be removed and which should remain for further review as part of the prioritisation process.

If you could provide your comments to me on this list by 12th November that would be much appreciated.

Any queries, do not hesitate to contact me.
