

I was asked to find a suitable web cam for streaming any Council meeting. I asked for help from Richard and he recommends the Zoom Q2n It has a 160 degree field of view and has excellent microphones, we need great sound as much as the quality of pictures.

With your agreement we can buy a camera and Richard has offered to test it in the Council Chamber.

Any other considerations which were in my first report can be agreed at a later date.

J Dent

The administration officer has reviewed this product and noted the following:

The Q2N has good sound, picture and angle scope with the capacity to stream live.

The power supply is from 2 AA batteries with an operation time of 2 hrs. Therefore, it would be worthwhile buying an ac adapter.

[Zoom - Q2n Handy HD Action Camera - Black](#)

Model: Q2N SKU: 5711068
