

## **Saltash Gateway Community Network Area**

CNA (Community Network Association) South East Cornwall is made up with representatives from the 11 Parishes and Towns in the area. It meets quarterly and the current Chairman is Cornwall Councillor Derek Holley.

The main topic has been the problems with the A38 as a safe highway and reducing pollution which a hotspot is recorded at Tideford.

Other serious topics from the discussions centre around fly tipping, improvements to road safety and the general well being of the CNA area.

Saltash are well represented at the meetings with our 4 Cornwall Councillors and a number of STC Councillors regularly in attendance.

I am open to any questions relating to this item

Councillor John Brady
