

Neighbourhood Plan Report to 2019 Annual Parish meeting

Once again I will only give a brief summary of Neighbourhood Plan activities since my last report to the Annual Parish Meeting and Town Council. More detailed information is (including meeting minutes) is available on the Neighbourhood Plan Website.

The Neighbourhood Plan Steering Group is currently holding fortnightly meetings. The text of the Saltash Neighbourhood Development Plan Consultation Draft has been produced and is now on the plan4saltash website as the Saltash Neighbourhood Development Plan Consultation Draft August 2018.

Cornwall Council have made some very useful comments on the Neighbourhood Development Plan Consultation Draft and supporting documentation including Environmental and Heritage issues. The Steering Group is now working through the detailed comments made by Cornwall Council CC on this Consultation Draft of the Neighbourhood Plan. We have agreed that some modifications would be made to the original consultation draft and that the principal activity of the next few meetings would be to run through the revised document as the changes are made.

The Steering Group will discuss with Cornwall Council any further changes needed to meet their outstanding comments.

This may necessitate further environmental assessments.

When this activity is complete a Neighbourhood Development Plan will be produced for formal public consultation in preparation for the referendum.

Councillor David Yates
