

Cemetery Report

4th June 2019

- 1 All burials and cremation interments have gone without problems.
- 2 Grass cutting is up to date.
- 3 The timber around the box hedging is due to be replaced very shortly because of rot.
- 4 Hot water for hand washing has now been installed in the toilet.
- 5 No parking signs have been put up to encourage allotment holders to use their own car park instead of cemetery spaces by the trailer. Some take notice and some don't! Also, there is a sign in the turning area. This is being monitored as much as possible.
