

British Hedgehogs – To consider STC becoming hedgehog friendly Town Council

Is there anyway that Saltash Town Council could sign up for being hedgehog friendly, and adopt hedgehog friendly practices like Callington? Seen so many squashed hedgehogs on our roads lately.

Practices such as:

- Labelling machinery: **Please check area for hedgehogs before using this equipment.**
- Road signs to alert drivers in areas of high hedgehog density and green-space fencing could help channel hedgehog movement away from major roads.

Please find attached the Hedgehog Street Guide.

Thank you

Resident of Saltash
