

## Saltash Rotary – Charity Well

**Request:** To situate the Saltash Rotary Charity Well at the Library.

At a recent meeting of the Saltash Rotary Club the refurbishment of the Library was briefly discussed and the club members raised the question that we have a small wishing well which would benefit from prolonged use rather than short festivals such as May Fair.

I write to ask if the Council could consider our well being situated within the updated facility.

The well takes the form of a circular pan around which coins are launched and circulated, finally falling into a catchment section at the bottom and takes only a few square feet of floor space to erect. The proceeds are always used for charity donations.

I hope that this will find favour with the Council.

Many thanks

**Size:** 2ft H x 3ft W Circular in shape

**Cost:** Nil cost to the Council. The well is a circular pan which coins are launched into and circulated, finally falling into a catchment section at the bottom. Proceeds are always used for charity donations.
