Councillor Bill Phillips:

I am proposing refusal on this as it appears to be extending the boundary and given it's a corner plot the reason the houses are set back is to allow vision for vehicles using the junction and I believe this fence would restrict vision. I have no declarations to declare.

Councillor Averil Pinckney:

A refusal from me please. No DOI.

Councillor Julie Rance:

I also recommend refusal for the same reasons given above. No interest to declare.

Councillor Brenda Samuels:

I recommend refusal the fencing will just close off that corner which is already very tight. No DOI.

Councillor Pete Samuels:

Looking at the photo submitted, compared with a google streetmap capture, there has already been a large amount of shrubbery removed, which in my opinion has been detrimental to the street scene. I recommend refusal. No DOI.

Councillor David Yates:

I would recommend refusal on the grounds that the proposed fence is out of keeping with the immediate area and is detrimental to the street scene. I have no declaration of interest to declare.
