SALTASH LIBRARY

Public Consultation for the community library refurbishment works and provision of café facilities.

We would like to receive your feedback on these developments that are designed to provide a better library experience for you.

We would really appreciate you taking the time to let us know your thoughts as these facilities are being upgraded for the library service.

The Consultation
Runs From
10th August - 7th September
2020

OUR LIBRARY

The future of Saltash Library and Information Service was safeguarded after being transferred to Saltash Town Council on March 1st 2019 as part of a new agreement with Cornwall Council.

The arrangement, which is part of Cornwall Council's devolution programme, means the building on Callington Road continues to provide all the key services essential to a modern library as well as access to a range of Cornwall Council and Town Council services.

SALTASH TOWN COUNCIL'S VISION

Saltash Town Council understands the importance of the library for its community therefore the Town Council is undertaking refurbishment works to provide a library service to an excellent standard of modernisation that will provide a multiuse facility to serve its community now and in the future.

Since March 1st 2019 Saltash Town Council have been working to establish the library as a community hub offering various increased activities and events for the people of Saltash and those visiting our town.

Renovating the building will not only allow the Town Council to continue to provide these existing services but also serve to develop and accommodate future groups and activities together with an inside and outside area to enjoy a drink and a bite to eat whilst catching up with family and friends or perhaps a drink whilst reading a book.

Part of the vision is to utilise the mezzanine floor as office space moving staff from rented accommodation to the library therefore reducing overhead costs and streamlining services.

The 3D floor plans and images set out a vision for the future of Saltash library which will be used to determine the works.

Copies of the images and 3D floor plans are available to view on the following platforms:
