

SALTASH TOWN COUNCIL

Announcement

Tree planting undertaken in St Stephens Cemetery

Saltash Town Council are pleased to approve Saltash Environmental Action (SEA) planting two medium sized tree at St Stephens Cemetery. This is following approval by the Parochial Church Council (PCC) at a recent meeting.

The hawthorn trees will be replacements for trees that were removed due to disease and damage to adjacent pathways.

SEA will plant the new trees and support them for the first three years with funding from Forest for Cornwall. The trees will provide attractive foliage and flowers and enhance the area for those visiting to remember loved ones.

Saltash Town Council are pleased to support SEA with this project alongside the other projects undertaken by the voluntary group in Saltash.
